Autointelli®

Aggregate | Automate | Audit

Leading AI-Driven, Award-Winning IT Operations Platform

Intelligent Operations. Customized Solutions. Measurable Outcomes.

SMARTER IT
STRONGER BUSINESSES
BRIGHTER TOMORROW

INTRODUCING

Autointelli IT Infra Automation Solutions

A next-generation AI-driven IT operations platform designed to help enterprises unify operations, automate workflows and optimize IT performance for measurable business outcomes.

Powering Smarter IT. Driving Business Forward.

OUR STRENGTHS. YOUR ADVANTAGE.

INTELLIGENT | SECURE | SCALABLE

AI-Powered Intelligence
Predict. Prevent. Optimize.

Automation-First Operations
Reduce effort. Increase efficiency.

Outcome-Focused Approach
Deliver business value, faster.

Enterprise-Grade Security
Built for secure, business-critical IT.

Cloud-Native & Scalable
Deploy on-prem, cloud or hybrid.

Unified Operational Visibility
One view across complex IT environments.

CERTIFICATIONS & QUALITY STANDARDS

TRUST. COMPLIANCE. EXCELLENCE.

CMMI Level 3 | ISO 9001 | ISO 27001 | ISO 27034

AWARD-WINNING EXCELLENCE

RECOGNIZED. TRUSTED. PROVEN.

- Best IT Infrastructure Automation Company – Economic Times of India (2025)
- National Award Nominee – Top 5 in the Country among lakhs of Startups (2024)
- Best Use of AI in Fintech – NBFC Fintech India Conclave (2024)
- Best IT Automation Company – Awarded by Governor of Tamil Nadu for Supporting G20 Summit (2023)
- Best IT Automation Software – Awarded at UK Government London (2022)
- Best IT Automation Company – STPI Chunauti 2.0, Government of India (2020)
- Best Automation Firm – Awarded by Kumar Mangalam Birla at Bizlabs Fintech (2019)

Turning Innovation into Impact

THE AUTOINTELLI ADVANTAGE

Unified Operations
Connect. Correlate. Simplify.

AI-Driven Intelligence
Predict. Prevent. Optimize.

Automation-First Delivery
Faster operations. Greater efficiency.

Enterprise Security & Compliance
Secure. Compliant. Business-ready.

Scalable Deployment Flexibility
On-prem, cloud or hybrid. Your choice.

Industry Verticals We Serve

Delivering Intelligent Solutions Across Diverse Industries

Enterprise

Powering Modern Enterprises

- Data Center
- BFSI
- IT/ITES
- Healthcare
- Education
- Manufacturing

Government

Enabling Digital Governance

- Smart Cities
- Government Departments
- Government Data Centers
- Surveillance & Public Safety

CSP

Empowering Service Providers

- CSP / DSP
- MSP
- ISP

TRUSTED PARTNER FOR A SMARTER TOMORROW

Autointelli®
Aggregate | Automate | Audit

Product Overview

Smarter IT.
Stronger Operations.
Greater Outcomes.

Autointelli's Unified Portfolio for IT Operations, Service Management, Security, Asset Governance and Automation

Unified360
Infrastructure, Network & Observability Platform

- Network, server, storage and application monitoring
- Real-time alerts, dashboards and SLA visibility
- Performance, availability and capacity insights

IntelliAsset
IT Asset Management Platform

- Asset discovery and hardware/software inventory
- Lifecycle, ownership, contracts and warranty tracking
- License governance, audit readiness and QR/barcode support

IntelliDesk
IT Service Management Platform

- Incident, request, problem and change management
- SLA, knowledge base and service catalog
- Workflow-driven service delivery and support automation

Securita
Privileged Access Management Platform

- Enterprise password vault and privileged remote access
- JIT access, password rotation and MFA/RBAC controls
- Session recording, audit logs and command restrictions

IntelliFlow
Automation & Orchestration Platform

- Workflow and runbook automation
- IT process orchestration and approval-driven execution
- Faster remediation through integrated automations

Unified Business Value | Visibility | Service Excellence | Asset Governance | Privileged Security | Automation at Scale

Autointelli®

Aggregate | Automate | Audit

UNIFIED ENTERPRISE MONITORING & OBSERVABILITY SUITE

NMS + OBSERVABILITY + AUTOMATION

Leading AI-Driven IT Operations Platform

Unify monitoring, observability and automation to deliver intelligent, proactive and autonomous IT operations.

Unified Visibility. AI-Powered Intelligence. Automated Actions.

AI-POWERED INTELLIGENCE.
UNIFIED VISIBILITY. AUTOMATED OPERATIONS.

NETWORK MONITORING (NMS)
Monitor network devices, availability, performance and traffic in real time.

FULL-STACK OBSERVABILITY
Correlate metrics, logs, traces and user experience across the entire stack.

REAL-TIME VISIBILITY
Single pane of glass for complete infrastructure and application visibility.

AI-POWERED INTELLIGENCE (AIOPS)
Detect anomalies, predict incidents and accelerate root cause analysis.

AUTOMATION
Automate incident response, remediation and routine IT operations.

PROACTIVE ALERTS & NOTIFICATIONS
Reduce noise with intelligent alerts and proactive incident management.

PERFORMANCE & OPTIMIZATION
Optimize resources, ensure SLA compliance and improve IT efficiency.

Autointelli®
Aggregate | Automate | Audit

ONE PLATFORM.
COMPLETE VISIBILTY.
SMARTER OPERATIONS.

MONITOR | AUTOMATE | RESOLVE | OPTIMIZE

Unified360

Enterprise IT Infrastructure Monitoring Platform

End-to-End Visibility. Proactive Alerts. Automated Operations.

Monitor your entire IT infrastructure — from Datacenter to End User — with a single, unified platform. Ensure higher availability, better performance and operational efficiency.

Network Monitoring
Switches, Routers, Firewalls, Wireless, SD-WAN

Server Monitoring
Windows, Linux, Hypervisors, Storage, Backup

End User Monitoring
Desktops, Laptops, VDI, Remote Users

Application Monitoring
IIS, Tomcat, JBoss, APIs, URLs, Services

Database Monitoring
Oracle, SQL Server, MySQL, PostgreSQL

Cloud & Virtualization
VMware, Hyper-V, AWS, Azure, Hybrid

Log & Flow Analysis
Syslogs, NetFlow, Application Logs, Traffic Analysis

Automation & Auto-Healing
Script Execution, Self-Healing, Incident Remediation

Reports & Compliance
Predefined Reports, Custom Reports, Audit & SLA

Broad Technology Support

Cisco | HPE | Dell | Fortinet | Palo Alto | Juniper | Aruba | Meraki | Windows | Linux | VMware | Hyper-V | AWS | Azure | Oracle | SQL Server | MySQL | SNMP | APIs & Custom

Unified Visibility. Automated Actions. Measurable Outcomes.

Higher Uptime | Better User Experience | Reduced Operational Effort | Lower IT Costs | Stronger Compliance

ENGINEERED FOR THE WORLD.

Autointelli®
Aggregate | Automate | Audit

IT SERVICE MANAGEMENT
FOR A SMARTER **TOMORROW**

IntelliDesk

Smart IT Service Management Platform

Deliver faster support, better user experience and intelligent service operations.

PEOPLE | PROCESS | POSSIBILITIES

Omni-Channel Support
Serve users seamlessly across portal, email, WhatsApp and collaboration channels.

Easy Automation
Automate approvals, task routing, escalations and repetitive service workflows.

WhatsApp Integration
Convenient ticket updates, notifications and user interactions through WhatsApp.

AI-Enabled Integrations
Connect with AI-powered assistants and smart integrations for faster resolutions.

Self-Service Experience
Empower users with service catalog, knowledge access and request tracking.

Insights & SLA Visibility
Track response, resolution, trends and SLA performance in real time.

IntelliDesk
SIMPLE. SMARTER. TOGETHER.

From Requests to Results

Key Business Value
- Faster ticket resolution
- Better end-user experience
- Reduced manual effort
- Improved service governance

Smarter IT for Happier People

Omni Channel | Automation | AI Integrations | WhatsApp | Self Service | SLA Visibility

AGGREGATE | AUTOMATE | AUDIT

Autointelli®
Aggregate | Automate | Audit

Autointelli ITSM Platform

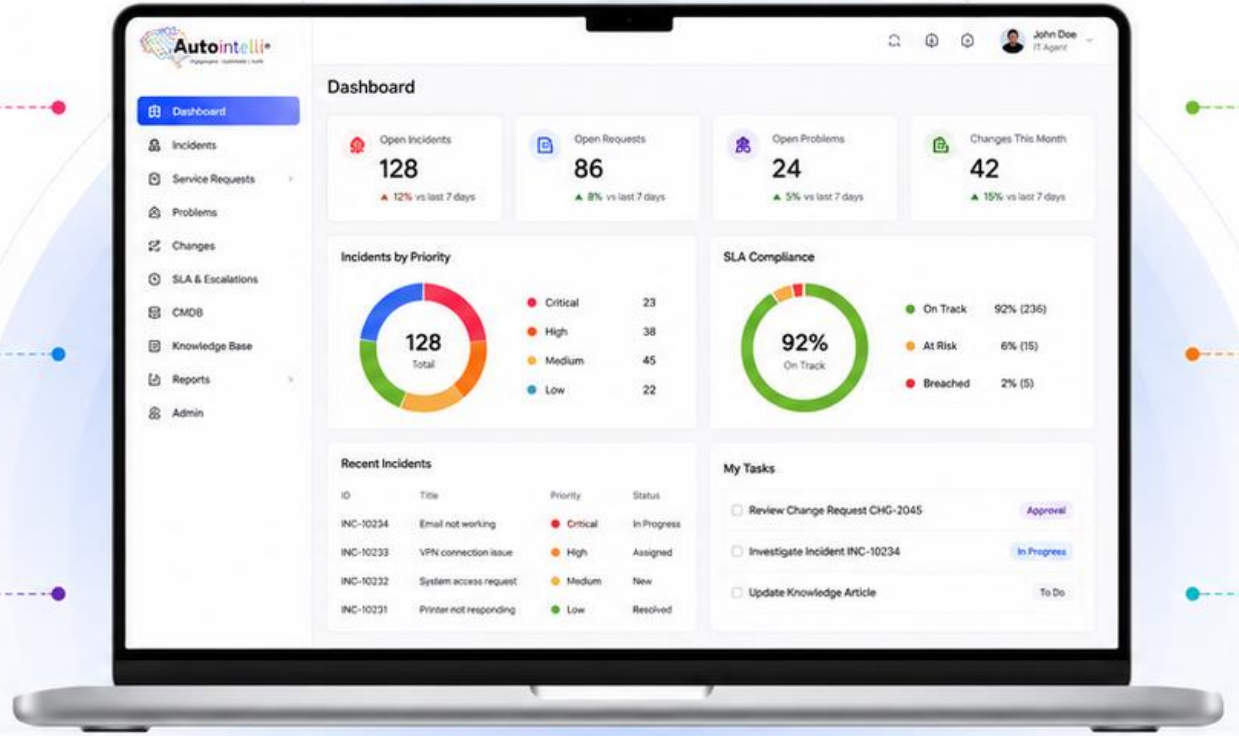

Streamline IT service delivery with automation, visibility and faster resolution.

Built for Enterprises | Designed for Outcomes

1. Incident Management
Log, prioritize and resolve incidents efficiently

2. Service Request Management
Standardize and automate user requests

3. Problem Management
Identify root cause and prevent recurring issues

4. Change Management
Control changes with approvals and audit trails

5. SLA & Escalation
Track service targets and trigger smart escalations

6. Self-Service Portal & Knowledge Base
Empower users with quick answers and ticket submission

Faster Resolution
Resolve issues quickly and minimize downtime

Improved User Experience
Deliver seamless, consistent service experiences

Higher Agent Productivity
Automate tasks and empower agents to achieve more

Automation-Driven Operations
Reduce manual effort and boost operational efficiency

Aggregate | Automate | Audit

Autointelli®

Aggregate | Automate | Audit

UNIFIED ASSET INTELLIGENCE PLATFORM

ITAM + OBSERVABILITY + QR + GPS

Leading AI-Driven IT Operations Platform

Transform how you track, monitor and optimize IT assets with real-time intelligence, location awareness and complete visibility.

Real-Time Insights. Predictive Control. Intelligent Operations.

AI-POWERED INTELLIGENCE THAT DRIVES IT FORWARD

END-TO-END IT ASSET MANAGEMENT

Manage the entire lifecycle of hardware, software, cloud and digital assets.

FULL-STACK OBSERVABILITY

Monitor infrastructure, applications, networks and user experience in real time.

REAL-TIME VISIBILITY

Get complete visibility across your IT ecosystem.

QR CODE GENERATION & VERIFICATION

Tag, verify and audit assets instantly with secure QR codes.

COST OPTIMIZATION & GOVERNANCE

Optimize costs, ensure compliance and maximize ROI on IT assets.

GPS TRACKING

Track real-time location, movement and utilization of assets across geographies.

PROACTIVE ALERTS & AUTOMATION

Detect issues early with intelligent alerts and automate resolution.

ONE PLATFORM. ONE SOURCE OF TRUTH. LIMITLESS INTELLIGENCE.

Autointelli®
Aggregate | Automate | Audit

ASSETS VISIBLE. OPERATIONS SMARTER.

DISCOVER | MANAGE | OPTIMIZE | STAY COMPLIANT

Intelliasset™

IT Asset Management, Simplified.

Complete Lifecycle Management for Your IT Assets.

Discover, track, manage and optimize your IT assets across the enterprise — from procurement to disposal, with automation, compliance and actionable insights.

Hardware Asset Management
Desktops, Laptops, Servers, Network Devices, Peripherals

Software Asset Management
Track installations, usage and license compliance

License Management
Optimize usage, prevent over-licensing, reduce costs

Procurement & Vendor Management
Track purchases, vendors, warranties and contracts

Maintenance & Support
Track service requests, maintenance schedules and SLAs

Lifecycle Management
From acquisition to decommissioning and disposal

Reporting & Analytics
Real-time dashboards, custom reports and insights

A SMARTER APPROACH TO ASSET MANAGEMENT

Discover
Auto-discover hardware and software assets

Manage
Track entire asset lifecycle with automation

Stay Compliant
License, contract and regulatory compliance

Optimize
Improve asset utilization and reduce costs

Sustainable IT
Plan for refresh and e-waste responsibly

TURN ASSET DATA INTO BUSINESS VALUE.

Smarter Assets. Stronger Businesses.

Lower IT Costs

Higher Asset Utilization

Better Compliance

Sustainable IT Operations

ENGINEERED FOR THE WORLD.

Autointelli®
Aggregate | Automate | Audit

CONTROL PRIVILEGED ACCESS.
ELIMINATE RISK. ENSURE COMPLIANCE.

Securita - Privileged Access Management Platform

Secure. Monitor. Control. Comply.

Protect your critical systems and data by controlling, monitoring and securing privileged access across your hybrid IT environment.

Secure Privileged Access
Enforce least privilege and Zero Trust

Full Visibility & Control
Monitor and record every privileged session

Protect Credentials & Systems
Eliminate credential misuse and unauthorized access

Ensure Compliance & Auditability
Complete audit trails and regulatory compliance

Automate & Strengthen Security
Reduce risk with automation and policy enforcement

BUILT ON ZERO TRUST PRINCIPLES
Verify every access. Protect every asset.

ENGINEERED FOR THE WORLD.

ISO 27001 | SOC 2 TYPE II | GDPR COMPLIANT | RBI GUIDELINES

Autointelli®
Aggregate | Automate | Audit

SECURITA360

Enterprise Privileged Access Management

Secure Every Privileged Identity. Control Every Session. Prove Every Action.

Encrypted Password & Secret Vault
Protect credentials with envelope encryption and controlled access

Privileged Account Discovery
Identify unmanaged, stale and high-risk privileged accounts

Agentless Remote Access
Browser-based SSH & RDP without exposing passwords

Just-in-Time Access
Approval-based, time-bound privilege with automatic expiry

Automated Password Rotation
Change, verify and securely commit credentials after use

RBAC, LDAP/AD & MFA
Enforce least privilege, strong authentication and separation of duties

Session Recording & Playback
Monitor, terminate and replay privileged activity

Command Control & Alerts
Restrict risky SSH commands and raise real-time alerts

Tamper-Evident Audit & Reports
Maintain accountable evidence for compliance and investigations

Policy, Dashboards & Integrations
Centralize risk visibility with ITSM, SIEM and webhook integration

BUSINESS BENEFITS

Reduce Credential Risk • Eliminate Password Sharing • Minimize Standing Privilege • Accelerate Audits • Strengthen Accountability

On-Premises Ready | Per Privileged User Licensing

Autointelli®
Aggregate | Automate | Audit

IT OPERATIONS TODAY
A SMARTER TOMORROW

IntelliFlow

Intelligent Workflow Automation Platform

Automate operations. Accelerate response. Improve resilience.

Customer Benefits

- Faster incident response and resolution
- Reduced manual effort and operational errors
- Standardized and repeatable workflows
- Improved service availability and resilience
- Faster execution across infrastructure and operations teams

Built for modern IT operations, data center automation and self-service orchestration.

Automation | Orchestration | Self-Service | Integration

Autointelli®
Aggregate | Automate | Audit

AUTOMATE OPERATIONS
ORCHESTRATE WITH CONFIDENCE

IntelliFlow

Automation & Orchestration Platform

Simplify repetitive operations, accelerate recovery and standardize execution across IT environments.

Built for IT operations, data center automation, auto-remediation and orchestration.

Faster Recovery | Lower Manual Effort | Repeatable Execution | Operational Resilience | Seamless Integration

Autointelli®
Aggregate | Automate | Audit

SMARTER IT.
STRONGER BUSINESS.

Other Notable Features

Extended capabilities across monitoring, service operations and asset governance.

Network Topology Map

Visualize network relationships, dependencies and connectivity in real time.

Business Service Management

Map infrastructure to business services for impact-based monitoring and faster prioritization.

IPAM

Centralized IP address management for visibility, tracking and efficient utilization.

Patch Management Integrated within ITAM

Plan, track and govern patch status directly within the asset management lifecycle.

Remote Control of End User Systems

Securely access and support desktops and laptops remotely for faster resolution.

SAM + SBOM + Contract Management in ITAM

Manage software assets, software bill of materials, licenses and contracts in one governed platform.

More Visibility | Better Control | Faster Response | Stronger Governance

FROM DATA
TO A SMARTER TOMORROW

Autointelli®
Aggregate | Automate | Audit

Reporting & Analytics

Unified reporting capabilities across Autointelli platforms.

Unified360 Reporting

- Infrastructure health dashboards
- Availability, uptime and SLA reports
- Capacity, performance and utilization trends

IntelliDesk Reporting

- Incident, request and problem summaries
- SLA compliance, MTTR and ageing reports
- Technician performance and service trends

IntelliAsset Reporting

- Asset inventory and lifecycle reports
- Warranty / AMC and ownership tracking
- Software, license and audit readiness reports

IntelliFlow Reporting

- Workflow execution and automation history
- Success / failure tracking and remediation trends
- Runbook effectiveness and operational insights

Dashboards & Drill-Down

- Interactive dashboards across operations, service and assets
- Role-based visibility for teams and management
- Drill-down views for faster decision-making

Scheduled & Exportable Reports

- Automated periodic report generation
- Export in PDF, CSV, XLSX and image formats
- Easy sharing for reviews, audits and leadership updates

Smarter Visibility. Better Decisions. Measurable Outcomes.

Autointelli®
Aggregate | Automate | Audit

Key Differentiators

More Visibility. Greater Automation. Real Business Outcomes.

People.
Process.
Possibilities.

Autointelli Unified Platform. Built for Today. Ready for Tomorrow.	KEY AREAS	Typical Competition Multiple Tools. Limited Integration.
Unified & Integrated Platform Network, ITSM, ITAM, Security & Automation – one platform with common data model.	SOLUTION APPROACH	**Fragmented Tools** Multiple point solutions with siloed data and limited integration.
AI-Powered Operations Predict, prevent and auto-remediate with built-in AI/ML capabilities across all modules.	INTELLIGENCE	**Reactive Monitoring** Mostly alert-driven, limited or no AI/ML and manual response.
Automation-First Pre-built and customizable workflows, self-service and closed-loop automation (IntelliFlow).	AUTOMATION	**Manual & Ad-hoc Processes** Limited automation, higher dependency on manual effort.
Cross-Platform Reporting & Analytics Real-time dashboards, unified reporting and actionable insights across all products.	REPORTING & ANALYTICS	**Isolated Reporting** Product-wise reports with limited cross-platform visibility.
Enterprise-Grade Security & Compliance Cloud-native, scalable and compliant (CMMI L3, ISO 9001, 27001, 27034).	SECURITY & COMPLIANCE	**Basic Security Posture** Limited compliance certifications and on-prem focused solutions.
Domain Expertise & Support Deep domain knowledge, faster implementation and dedicated customer success.	PARTNERSHIP	**Transactional Engagement** Generic support with limited domain expertise.

LOWER TCO
More value, less complexity

FASTER TIME TO VALUE
From insights to action

STRONGER RESILIENCE
Proactive, not reactive
